Subject HPV submission

Attached please find the HPV submission test plan and dossier for Tris(hydroxymethyl)aminomethane (77-86-1). A hard copy and CD were sent via Fed Ex yesterday, (Tuesday, 14 November) with an arrival to EPA by the morning of today, Wednesday, 15 November. However, according to Fed Ex there were weather conditions and a missed courier pick up which did not allow for a Wednesday delivery of the test plan and dossier to EPA. We were not informed that Fed Ex did not deliver the package until after 5:00 pm today (Wednesday, 15 November). We apologize for this unforeseen delay of FedEx not being able to do the next day delivery. We made every attempt to make the November 15th submission day. If you have any questions please contact Pam Cosse 989-638-9660 or Dr. William Stott 989-636-8203.
